

Manufactured By Trinity Sling

Patent No. US 8,991,031 B2

Engineered Iron Restraint System

Improved Regular Duty Gangline™ System

The Improved Regular Duty (RD) Gangline™ System* features:

- Faster installation
- All-in-One Design—Fewer Pieces
- Lighter Construction
- Positive Locking Connection

Why Gangline™? Because it is

- ▶ The lightest weight restraint system
- ▶ The fastest restraint system to install
- ▶ The easiest restraint system to train

The Improved RD Gangline™ System* features:

- Lower Rental Price--Rental Availability
- Lower Purchase Price
- Faster Installation
- Lighter Weight
- Fewer Pieces
- Revised Instruction Manual and Training

*Applies to improved RD Gangline™ System's capacity to restrain 1502 iron up to 2" inside diameter, 15,000 psi. Do not use improved RD Gangline™ in conjunction with Gangline™ systems designed to be used with safety bolt shackles.

Trinity Sling has Gangline™ Rental and Purchase Systems Ready to Ship in Regular Duty and Heavy Duty. Contact a Gangline™ representative for pricing and training at <http://thegangline.com/contact/>.
